SPECIAL NOTES

***DMPs** Dock Master Plans - OCRM is reviewing the listed DMPs for planning purposes only. Permitting decisions will occur when future dock applications are processed by OCRM for individual property owners. This document is used as a planning tool it is not subject to the appeal. OCRM welcomes comments from the public on these planning documents.

****WMPs** Wetland Master Plans – OCRM is reviewing the listed WMPs for planning purposes only. Permitting decisions will occur when future applications are processed by OCRM, which include impacts to freshwater wetlands. This document is used as a planning tool; it is not subject to appeal. OCRM welcomes comments from the public on these planning documents.

*****SWMPs** Stormwater Master Plans – OCRM is reviewing the listed SWMPs for planning purposes only. Permitting decisions will occur when future applications are processed by OCRM. OCRM welcomes comments from the public on these planning documents.

******PERs** Preliminary Engineering Reports – OCRM is reviewing the lists PERs for the purpose of commenting to other sections of DHEC concerning this document. OCRM will not be issuing a coastal zone consistency certification at this time but providing comments. If this proposal moves forward to the permitting process, OCRM would at that time do a full coastal zone consistency review.

PUBLIC NOTICE ***Revision***

The applicant for P/N# OCRM-05-947, Jarvis Creek, LLC, has submitted revised plans concerning the proposed passive use walkway in the Paddocks Subdivision. Due to an alteration of the Critical Area Line by the Department a reduction in the size of the island resulted and the applicant now proposes to construct a 5' by 295' walkway leading to a .35 acre island rather than a 5' by 175' long walkway leading to a .46 acre island. The purpose of the walkway continues to be for the community's passive recreational use at the Paddocks Subdivision adjacent to the marshes of Jarvis Creek, Hackney Pony Lane, Hilton Head Island, Beaufort County, South Carolina.

Comments will be received on this revision until June 12, 2006. For further information please contact the project manager for this activity at 843-747-4323.

SCDHEC OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT
PERMIT APPLICATION PUBLIC NOTICE

June 2, 2006

Permit Number: OCRM-06-103-R
Permit ID: 54285

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Kenneth H Kabine
6 Tabby Lane
Isle of Palms, SC 29451

LOCATION: On and adjacent to a canal off of the Atlantic Intracoastal Waterway at 6 Tabby Lane, Isle of Palms, Charleston County, South Carolina.
TMS#: 571-05-00-157

WORK: The work as proposed and shown on the attached plans consists of adding a floating boat dock. Specifically, the applicant seeks to add a 10' x 24' floating boat dock on the floodside of the existing floating dock. The work as described is for the applicant's private, recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

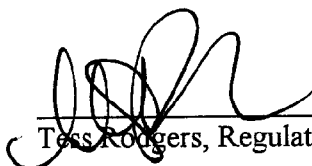

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before June 17, 2006. For further information please contact the project manager for this activity, Tess Rodgers at 843-747-4323 ext. 116.

PERMIT APPLICATION PUBLIC NOTICE

June 2, 2006

Permit Number: OCRM-06-168-R
Permit ID: 54942

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Michael Hayes
C/O Wayne Beam
PO Box 11863
Columbia, SC 29211

LOCATION: On and adjacent to Wando River at Lot 59 The Harbour at Dunes West, Mount Pleasant,
Charleston County, South Carolina.
TMS: Has not been assigned

WORK: The work as proposed and shown on the attached drawings consists of constructing a dock. Specifically, the applicant seeks to build a 4' x 105' walkway leading to a covered 16' x 16' pierhead. Ebbside, a 3' x 16' ramp will access an 8' x 26' floating dock. Floodside, a 12' x 24' boatlift is proposed. The work as described is for the applicant's private, recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before June 17, 2006. For further information please contact the project manager for this activity, Tess Rodgers at 843-747-4323 ext. 116.

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Richard Bryant
1423 Alice Drive
Florence, SC 29505

LOCATION: On and adjacent to Williams Creek at 341 51st Ave, North Myrtle Beach, Horry County,
South Carolina.
TMS#: 145-03-25-042.

WORK: The work, as proposed, will consist of modifying and replacing portions of an existing docking structure. Specifically, the applicant proposes to remove a two 4' by 16' walkways that connect to a 8' by 16' fixed pierhead. In its place, the modified structure will consist of a new 16' by 16' fixed pier, with the existing 3' by 12' ramp, and the existing 8.5' by 16' floating dock repositioned more towards the center of the property. The total square footage of the modified structures will equal the same total square footage of the original structures. Additionally, an existing 52' long bulkhead will be replaced with a vinyl bulkhead of the same dimension. The purpose of the proposed activity is for the applicant's private recreation use and erosion control.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before June 17, 2006. For further information please contact the project manager for this activity at 843-238-4528.

(Latitude – 32.78320; Longitude – 79.87570)

In order to give all interested parties an opportunity to express their views

NOTICE

is hereby given that written statements regarding the proposed work will be received by both of the above mentioned offices until

12 O'CLOCK NOON, MONDAY, 19 JUNE 2006

from those interested in the activity and whose interests may be affected by the proposed work.

The proposed work consists of constructing a timber pier with a 16' x 16' fixed pierhead attached to highland by a 4' x 649' walkway. An 8' x 30' floating dock is to be installed in front of the fixed pierhead and attached to the fixed pierhead by a 3' x 20' ramp. A 12' x 12' four-pile boat lift is to be installed on the upstream side of the fixed pierhead. It is understood that this work will be conducted on/or adjacent to an area subject to a prism and/or disposal easement held by the United States in perpetuity in conjunction with a Congressionally authorized project for the maintenance and improvement of Charleston Harbor. Should a permit be issued, appropriate provisions will be included to ensure the interests of the Federal Government are understood. The purpose of this work is for the applicants' private recreational use.

NOTE: Plans depicting the work described in this notice are available and will be provided, upon receipt of a written request, to anyone that is interested in obtaining a copy of the plans for the specific project. The request must identify the project of interest by public notice number and a self-addressed stamped envelope must also be provided for mailing the drawings to you. Your request for drawings should be addressed to the

The work shown on this application must also be certified as consistent with applicable provisions of the Coastal Zone Management Program (15 CFR 930). The District Engineer will not process this application to a conclusion until such certification is received. The applicant is hereby advised that supplemental information may be required by the State to facilitate the review. Persons wishing to comment or object to State certification must submit all comments in writing to the South Carolina Department of Health and Environmental Control at the above address within thirty (30) days of the date of this notice.

This initiates the Essential Fish Habitat (EFH) consultation requirements of the Magnuson-Stevens Fishery Conservation and Management Act. Implementation of the proposed project would impact estuarine substrates and emergent wetlands utilized by various life stages of species comprising the red drum, shrimp, and snapper-grouper management complexes. Our initial determination is that the proposed action would not have a substantial individual or cumulative adverse impact on EFH or fisheries managed by the South Atlantic Fishery Management Council and the National Marine Fisheries Service (NMFS). Our final determination relative to project impacts and the need for mitigation measures is subject to review by and coordination with the NMFS.

The District Engineer has consulted the most recently available information and has determined that the project will have no effect on any Federally endangered, threatened, or proposed species and will not result in the destruction or adverse modification of designated or proposed critical habitat. This public notice serves as a request to the U.S. Fish and Wildlife Service and the National Marine Fisheries Service for any additional information they may have on whether any listed or proposed endangered or threatened species or designated or proposed critical habitat may be present in the area which would be affected by the activity, pursuant to Section 7(c) of the Endangered Species Act of 1973 (as amended).

Pursuant to Section 106 of the National Historic Preservation Act (NHPA), this public notice also constitutes a request to Indian Tribes to notify the District Engineer of any historic properties of religious and cultural significance to them that may be affected by the proposed undertaking.

In accordance with the NHPA, the District Engineer has also consulted the latest published version of the National Register of Historic Places for the presence or absence of registered properties, or properties listed as being eligible for inclusion therein, and has determined that the proposed work will occur within the boundaries of the "Mt. Pleasant Historic District," an area included in the National Register of Historic Places. The District Engineer has made a preliminary determination that the project will have "no adverse effect" on the characteristics which resulted in the "Mt. Pleasant Historic District" being determined eligible for inclusion in the National Register of Historic Places. By copy of this notice, the views of the State Historic Preservation Officer and his concurrence in the above stated "no adverse effect" determination are being sought.

Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Requests for a public hearing shall state, with particularity, the reasons for holding a public hearing.

The decision whether to issue a permit will be based on an evaluation of the probable impact including cumulative impacts of the activity on the public interest. That decision will reflect the national concern for both protection and utilization of important resources. The benefit which reasonably may be expected to accrue from the project must be balanced against its reasonably foreseeable detriments. All factors which may be relevant to

the project will be considered including the cumulative effects thereof; among those are conservation, economics, aesthetics, general environmental concerns, wetlands, historic properties, fish and wildlife values, flood hazards, flood plain values, land use, navigation, shoreline erosion and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food and fiber production and, in general, the needs and welfare of the people. A permit will be granted unless the District Engineer determines that it would be contrary to the public interest. In cases of conflicting property rights, the Corps of Engineers cannot undertake to adjudicate rival claims.

The Corps of Engineers is soliciting comments from the public; Federal, state, and local agencies and officials; Indian Tribes; and other interested parties in order to consider and evaluate the impacts of this activity. Any comments received will be considered by the Corps of Engineers to determine whether to issue, modify, condition or deny a permit for this project. To make this decision, comments are used to assess impacts on endangered species, historic properties, water quality, general environmental effects, and the other public interest factors listed above. Comments are used in the preparation of an Environmental Assessment and/or an Environmental Impact Statement pursuant to the National Environmental Policy Act. Comments are also used to determine the need for a public hearing and to determine the overall public interest of the activity.

If there are any questions concerning this public notice, please contact me at 843-329-8044 or toll free at 1-866-329-8187.

from those interested in the activity and whose interests may be affected by the proposed work.

The proposed work consists of constructing a community dock structure with a 20' x 20' covered fixed pierhead attached to highland by a 6' x 30' walkway. Two (2) 10' x 40' floats connected by a 10' x 20' float are to be installed in front of the fixed pierhead and attached to the fixed pierhead by a 4' x 30' ramp. An existing dock structure at the site is to be removed and disposed of in an approved disposal site. The proposed bulkhead is authorized by a nationwide permit and, as such, no further processing is required by the Corps of Engineers. This portion of the work, however, is subject to the permitting authority of the South Carolina Department of Health and Environmental Control, Office of Ocean and Coastal Resource Management. The purpose of this work is for the private recreational use of the residents of the May Hill Community.

The District Engineer has concluded that the discharges associated with this project, both direct and indirect, should be reviewed by the South Carolina Department of Health and Environmental Control in accordance with provisions of Section 401 of the Clean Water Act. As such, this notice constitutes a request, on behalf of the applicant, for certification that this project will comply with applicable effluent limitations and water quality standards. The work shown on this application must also be certified as consistent with applicable provisions the Coastal Zone Management Program (15 CFR 930). The District Engineer will not process this application to a conclusion until such certifications are received. The applicant is hereby advised that supplemental information may be required by the State to facilitate the review.

This notice initiates the Essential Fish Habitat (EFH) consultation requirements of the Magnuson-Stevens Fishery Conservation and Management Act. Implementation of the proposed project would impact estuarine substrates and emergent wetlands utilized by various life stages of species comprising the red drum, shrimp, and snapper-grouper management complexes. Our initial determination is that the proposed action would not have a substantial individual or cumulative adverse impact on EFH or fisheries managed by the South Atlantic Fishery Management Council and the National Marine Fisheries Service (NMFS). Our final determination relative to project impacts and the need for mitigation measures is subject to review by and coordination with the NMFS.

The District Engineer has consulted the most recently available information and has determined that the project will have no effect on any Federally endangered, threatened, or proposed species and will not result in the destruction or adverse modification of designated or proposed critical habitat. This public notice serves as a request to the U.S. Fish and Wildlife Service and the National Marine Fisheries Service for any additional information they may have on whether any listed or proposed endangered or threatened species or designated or proposed critical habitat may be present in the area which would be affected by the activity, pursuant to Section 7(c) of the Endangered Species Act of 1973 (as amended).

Pursuant to Section 106 of the National Historic Preservation Act (NHPA), this public notice also constitutes a request to Indian Tribes to notify the District Engineer of any historic properties of religious and cultural significance to them that may be affected by the proposed undertaking.

In accordance with the NHPA, the District Engineer has also consulted the latest published version of the National Register of Historic Places for the presence or absence of registered properties, or properties listed as being eligible for inclusion therein, and this worksite is not included as a registered property or property listed as being eligible for inclusion in the Register. To insure that other cultural resources that the District Engineer is not aware of are not overlooked, this public notice also serves as a request to the State Historic Preservation Office to provide any information it may have with regard to historic and cultural resources.

Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Requests for a public hearing shall state, with particularity, the reasons for holding a public hearing.

The decision whether to issue a permit will be based on an evaluation of the probable impact including cumulative impacts of the activity on the public interest. That decision will reflect the national concern for both protection and utilization of important resources. The benefit which reasonably may be expected to accrue from the project must be balanced against its reasonably foreseeable detriments. A permit will be granted unless the District Engineer determines that it would be contrary to the public interest. In cases of conflicting property rights, the Corps of Engineers cannot undertake to adjudicate rival claims.

The Corps of Engineers is soliciting comments from the public; Federal, state, and local agencies and officials; Indian Tribes; and other interested parties in order to consider and evaluate the impacts of this activity. Any comments received will be considered by the Corps of Engineers to determine whether to issue, modify, condition or deny a permit for this project. To make this decision, comments are used to assess impacts on endangered species, historic properties, water quality, general environmental effects, and the other public interest factors listed above. Comments are used in the preparation of an Environmental Assessment and/or an Environmental Impact Statement pursuant to the National Environmental Policy Act. Comments are also used to determine the need for a public hearing and to determine the overall public interest of the activity.
